

BINGO DISCOVERY

For the squares with subjects in bold, fill out ahead of time.
Write the matching person's name at the bottom of each square.

Break into groups of 3-5 depending on the size of the group.

Virtually, randomly create breakout rooms and switch every 3 min.

In-Person: Give everyone a number. Number 1 stays put, odd numbers move left, evens move right.

Winner yells BINGO - virtually, can come back to the room when they have a bingo!

Ensure all participants have their Bring/Need document.

If not using all 34, options could be same domain dominance, or finding all top 5 among 3 or more people

More than one from same person? Ask the audience what they prefer.
